# Stool Culture Examination

2024/08/01

## 1 Steps for the collection of specimen

- 1.1 Please unwrap the envelope of culture medium (black long tube) for the specimen transfer.
- 1.2 Hold the black end of cotton stick. Gently probe the whole cotton tip into the anus. Rotate the stick then pull it out. Do not touch the cotton tip.
- 1.3 Open the black culture tube and discard the lid. Since the cotton tip is covered with stool, insert the cotton stick slowly into the culture tube and snap tightly. Do not break the cotton stick.
- 1.4 Please bring the examination form and culture tube to the laboratory personnel at the counter.
- 1.5 Please do not collect the stool specimen from the toilet bowl to avoid contamination.
- 1.6 Send the specimen for examination within 24 hours after collection.

## 2 Notes for the collection of specimen: do not collect the part of stool contaminated with the water of toilet bowl.
